## **15:20-17:00 Fourth National Information Day and Workshop "Open Access to Scientific Information"**

**Chair:** Peter Stanchev

**Place:** *Museum of the Bulgarian Revival and Constituent Assembly – 2<sup>rd</sup> floor*

*Peter Stanchev, Georgi Simeonov* – Fourth National Information Day and Workshop: Open Access to Scientific Information and Data

In the last four years the Institute of Mathematics and Informatics by the Bulgarian Academy of Sciences (IMI-BAS) acts as a national coordinator of activities for open access to scientific information and data and provide support for academic institutions and researchers. IMI-BAS works to develop the research infrastructure and digital repositories for researchers, educators, public bodies and companies who need contemporary scientific and education information and resources. This foster integration between academia, the public sector and industry strengthen the institutional links between all major research and education organizations. In the moment, there are six Open Access Bulgarian repositories. There are 33 Bulgarian Open Access journals listed in the Directory of Open Access Journals (DOAJ).

The national information day "Open access to scientific information" invites representatives of national institutions (including the Ministry of Education and Science, Ministry of Transport, Information Technologies and Communication, Ministry of Culture), responsible for the development of open access policies, representatives of Bulgarian institutions (research institutes and universities), active in the implementation of open access policy and program, specialist at UNESCO Department "Open Access and scientific information and ICT and science".

The program will cover the following activities:

- Dissemination of partners best practices;
- Discussion on research problems in the field;
- Discussion on possibilities of establishing network of open access repositories;

- Development of study on the harmonization problems of national legislation and practices;
- Discussion on possibilities for developing training course for PhD students and young researchers in the field;
- Discussion on possibilities of developing training course for developers and managers of scientific digital repositories to ensure interoperability.

Topics:

- Development of open access to research and scientific information;
- Business models, copyrights and licenses for open access;
- Strategies for the promotion of open access;
- Examples of policies for the development and promotion of open access to the national and institutional levels;
- Recommendations for the development of policies for the promotion of open access.

**17:00-17:20** Coffee Break (*Regional Public Library "Petko Rachev Slaveykov" – lobby*)
